

Description of Additional Supplementary Information

File Name: Supplementary Data 1

Description: Mutations found by WES in diagnosis, remission and relapse samples from NPM1mut loss AML patients.

File Name: Supplementary Data 2

Description: Mutations found by WES in diagnosis, remission and relapse samples from NPM1mut persistent AML patients.

File Name: Supplementary Data 3

Description: Selected significantly enriched MSigDB gene sets for mutated genes in diagnosis and relapse samples from AML patients with NPM1mut loss or persistence.

File Name: Supplementary Data 4

Description: Differentially expressed genes between diagnosis and relapse samples from NPM1mut loss AML patients.

File Name: Supplementary Data 5

Description: Selected enriched pathways in NPM1mut loss samples.
