

Description of Additional Supplementary Files

File Name: Supplementary Data 1

Description: Autoantibody levels and metadata

File Name: Supplementary Data 2

Description: Log2-transformed autoantibody data.

File Name: Supplementary Data 3

Description: Autoantibody targets: gene names and functions.

File Name: Supplementary Data 4

Description: Gene ontology analysis of _autoantibody targets.

File Name: Supplementary Data 5

Description: Functional relationships between antibody targets and biological processes.
