

S1 Fig. Repeat assay results for VRC01gl. Shown are results for VRC01gl assayed against GnT1⁻ versions of 426c.TM1 (n=5) and 426c.TM4 (n=4). Due to a limited supply of the antibody, some concentration ranges are lower than others. Accompanies Fig 1. Figure 1 shows the curves for assay 3 for both viruses as representing the closest to the mean.
