

Supplementary Figure 4. Cynomolgus monkey AAV biodistribution. (a) Representation of liver regions indicated in Figure 3. (b) DNA (left y-axis) and mRNA/cDNA (right y-axis) vector copy number in the indicated organs and liver regions. (c) NGS read contribution (%) for each AAV from extracted DNA in the indicated cells and organs. Abbreviations: PBMC: peripheral blood-derived mono-nuclear cells; LN: lymph node
