

Description of Additional Supplementary Files

Differential gene expression and alternative splicing data related to Figure 3:

- Supplementary Data 1: Differential Gene Expression analysis of RBM20 lacZ and RRM mice.
- Supplementary Data 2: Differential Splicing analysis of RBM20 lacZ and RRM mice.

Alternative splicing data related to Figure 5:

- Supplementary Data 3: Differential Splicing analysis of SHR vs BN rat.
- Supplementary Data 4: Differential Splicing analysis in human HCM.
- Supplementary Data 5: Differential Splicing analysis in human DCM.
- Supplementary Data 6: RBM20 target genes
